FINALLY HEART TROUBLE.
Restored to Health by Dr. Miles' Nervine.

DR. EDWARD HARDY, the jolly manager of Shepard Co's. great store at Briceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

General Augusti Wires Madrid the Situation In Manila.

HE HAS A VAIN HOPE

That He Will Receive Assistance From the Peninsula.

WITHIN THE WALLED CITY

He May Be Compelled to Take Refuge.

Fighting in All Directions Is Reported From the Capital of the Philippines.

The Captain General's Family Said to Have Been Captured by the Insurgents.

Cadiz Fleet Sighted Off Gibraltar Sailing Eastward—Ships Carrying the Rebel Flag Appear in Front of Manila.

Madrid, June 18.—The following dispatch from Manila signed by Captain General Augusti and dated June 13, is published officially:

"The grave situation set forth in my dispatch of June 5th continues. The troops are fighting on the line of block-houses which stops the enemy's advance. The enemy has been strengthened by desertions of the native troops, which diminish our means of resistance, and may compel me to take refuge within the walled city.

"Communication with the provinces is still cut off and I do not know whether the detachments there will be able to hold out against a lack of resources.

"I hope to receive assistance from the peninsula before our means of defense are exhausted."

CADIZ FLEET.

Rumors in Madrid That It Has Sailed For Boston.

Madrid, June 18.—There are a number of rumors in circulation here as to the destination of Admiral Camara's fleet. One has it that the Spanish warships are now heading for Boston, with the intention of bombarding New England towns, and another report sets forth that the Spanish reserve fleet is going to the Philippine Islands.

Fresh contingents of troops are being constantly called to the colors, and there is great activity in the war and navy departments. Work on the fortifications at the different ports of Spain is being actively pushed, and it is asserted that a third squadron of warships is to be formed immediately, to be composed of the Cardinal Cisneros, Lepanto, Alfonso XIII and other cruisers. Cadiz is to be the rendezvous of this squadron.

It is the general opinion here that a protracted war is ahead and it is semi-officially announced that the government does not count upon the support of any power, and that even Germany, in spite of her great interests in the

Philippine islands, will do nothing to favor Spain.

One of the high Spanish ministers in an interview yesterday said: "Aguinaldo, after breaking faith with the Spaniards, induced the uprising in aid of the Americans by swearing that the latter only came to liberate the Philippine Islands and would support a native republic. But when the natives see through the trickery and Spanish war ships, with reinforcements appear, there will be reaction in favor of Spain, because the natives, although fickle, are still influenced by the friars who are only hated by the members of the secret societies, and not by the mass of natives."

"If Manila is obliged to capitulate, the seat of government will be transferred to the Visayas Islands, Gen. Augusti capitulating as commander of Manila and not as governor general of the Philippine Islands."

for the Spanish troops and carrying, it is understood, \$100,000 in gold.

Addition to Be Made to British Navy.

London, June 18.—In the house of commons yesterday the first lord of the admiralty, Mr. Goschen, replying to a question as to when the vote on the navy estimates will be taken, announced that in consequence of circumstances, unnecessary to specify, the government was considering the question of an addition to its shipbuilding programme and was anxious to secure the most authentic and fullest information before submitting the new proposals to the house. Therefore, he said, the vote would be deferred until July 15.

Americans Taking No Part.

London, June 18.—The Madrid correspondent of The Daily Mail says: "An official dispatch from Manila asserts that the insurgents have closed around the town and are now attacking the walled part, where the defenders are still holding out. The insurgents have cut the water supply, but the city has remaining wells available. Fighting is going on, all on the sea front, but the Americans are taking no part in the attack."

Philippine Insurgents Have Warships.

London, June 18.—A special dispatch from Madrid says that according to a dispatch just received there from Hong Kong four warships carrying the flag of the Philippine insurgents have appeared in Manila bay and attacked the city from the sea in combination with the insurgent forces on land.

The Cadiz Fleet.

Gibraltar, June 18.—The Cadiz fleet passed here yesterday going eastward. It consisted of two battleships, four auxiliary cruisers and four torpedo-boat destroyers.

Some of the Notable Features in the Business World.

New York, June 18.—Bradstreet today says: "Unprecedented foreign trade totals, involving heavily increased shipments of breadstuffs, provisions, raw cotton and manufactured products, flattering crop prospects, pointing to a very large yield of wheat and most other cereals, as well as cotton; profitable railway operations, as reflected in relatively heavier gains in net than in gross receipts; activity in nearly all lines of manufacturing except some textile branches; prices for most staples showing heavy advances over the preceding year; bank clearings exceeding all previous records at this date; a volume of new demand limited in the east and south to midsummer dullness, but in the west and northwest comparing favorably with records of previous years, and a low rate of business mortality, are all features of the general business situation at the present time.

Cotton goods, if anything, are slightly improved, but raw wool is still under restricted demand, because manufacturers find new business slow. The price situation for the week, reflects steadiness, only in point decreases being in southern pig, wheat and flour, while hides are higher at the west, a number of metals have been advanced, and oats, corn, lard and cotton note fractional advances.

FIGHT WITH THIEVES.

Hunters Find a Lot of Household Goods in the Woods.

Richmond, Ky., June 18.—While squirrel hunting near Big Hill, 10 miles south of here, John McHorn found a lot of household goods concealed in the woods. Suspecting theft, he and three others watched for the thieves, who appeared with a wagon. When commanded to halt the thieves opened fire on McHorn and party and a pitched battle ensued. McHorn was shot in the shoulder and leg. One of the thieves is believed to have been wounded. All of them escaped, leaving the wagon, a hat and a coat. There have been no arrests.

London, June 18.—The Hong Kong correspondent of the Times says: According to Manila advices, dated June 13, and brought here by H. M. S. Linnet, the rebels have captured the family of Captain General Augusti.

In most cases the desertions of the native regiments have been accompanied by a massacre of the officers. It is reported from Shanghai that the Spanish archbishop from Manila has arrived there by the German troopship Darmstadt.

AN INSPIRING EFFECT

Had General Miles' Arrival In Washington on War Preparations.

PORTO RICO EXPEDITION

It Will Be of Greater Dimension Than at First Intended.

SPANISH DEFENSES

Have Been Greatly Strengthened and the Garrison Reinforced—Miles Talks in a General Way of Prospective Military Movements—Watching the Cadiz Fleet.

Recruits Arriving at Chickamauga and Courtmartial Being Held.

Washington, June 18.—The return of General Miles to Washington from Tampa has had an inspiring effect upon the war preparations. The general had a busy day yesterday, calling upon Secretary Alger, consulting the chiefs of the staff departments and giving the department the benefit of his observations at Tampa.

Secretary Alger said that he was entirely satisfied with the condition of troops as reported by General Miles. The general is yet to have a conference with the president. In the meantime the plans are moving steadily for sending further expeditions both to Porto Rico and Cuba. There is little likelihood that a second expedition of men to reinforce General Shafter at Santiago will leave within the next few days, as has been reported. The main consideration just at present is the equipment of an expedition of greater dimensions than heretofore discussed, with Porto Rico as the objective point. A month ago the military authorities were satisfied that a small force would be sufficient to occupy Porto Rico, as the Spanish force there did not exceed 5,000 or 6,000 men. Now, however, the Spanish garrisons have been reinforced, and the defenses strengthened that it is believed a much larger invading army will be required.

Moreover, the officials were satisfied on learning yesterday that the Cadiz fleet had sailed, and that the ships would go to Porto Rico rather than to Cuba, if they crossed to this side.

In a General Way.

General Miles would speak only in the most general way as to the prospective army movements. When asked as to starting further armies of invasion to Cuba, Porto Rico and elsewhere, he said: "The military campaign is proceeding steadily toward its complete execution. The sending of one expedition or another is but a detail, a single part of a general plan of campaign. Of course it is more or less right to say that troops are about to be forwarded and that expeditions will be equipped and sent. That almost goes without saying, for, when we entered upon war, an aggressive campaign was formulated and approved, which contemplated the sending of expeditions and their co-operation toward the successful prosecution of the war. Just when these expeditions will move and how many men will accompany them it is not desirable to say now, but it is enough to state that the campaign now entered upon is to be prosecuted with the utmost vigor until the end of the war."

Dewey's report on June 12 from Cavite was food for a good deal of discussion at the navy department. It would seem to indicate that Manila probably has fallen by this time. One phrase used by the admiral that "they do not intend to take the city at the present time" warrants the belief that he has reached a perfect understanding with the insurgent leader and that the town is not to be attacked until his own troops arrive. For some reason it is extremely desirable that such should be the case and that Dewey should receive the surrender of the town in person rather than force the Spaniards to surrender to the insurgents and thereby afford a possible pretext for the interference of some of the European powers whose ships are gathering in suspiciously large numbers in Manila bay.

The Cadiz fleet is being narrowly watched, although he naval view is not similar to that taken by the army officers. The former do not attach as much importance to this fleet as the latter, and few of the officers can be found to believe that the ships will even venture far from the Spanish coast, much less attempt to cross the Atlantic or go to the Philippines.

TO HORROR HOBSON.

Congress Asked to Make Him Lieutenant Commander.

Washington, June 18.—Representative Underwood of Alabama, in whose district belongs Assistant Naval Constructor Hobson, has introduced a joint resolution tendering the thanks of congress to Hobson and authorizing his transfer from the construction corps to the line of the navy with the rank of lieutenant commander.

Senator Morgan introduced a duplicate of the Underwood resolution in the senate. He said the provision for the transfer of Mr. Hobson to the line of the navy was inserted at the request of Mr. Hobson's father.

DOINGS AT CHICKAMAUGA.

Arrival of Recruits—Courtmartial Trials in Progress.

Chickamauga National Military Park, Ga., June 18.—The most satisfactory reports are being received from the various state recruiting stations.

The arrivals reporting to General Brooke yesterday were as follows: Thirty for the One Hundred and Sixtieth Indiana, 30 for the Third Kentucky, 48 for the Second Wisconsin, 21 for the Third Illinois, 154 for the First Pennsylvania, 20 for the Second Missouri and a number of others that had not reported last night. In all Major Richards states that 400 recruits were received yesterday.

Two interesting courtmartial trials were in progress yesterday. Private John G. Maher, secretary to Colonel Bills of the Second Nebraska, was tried for alleged insubordination. The facts of the case involved the right of an enlisted man to the use of his own private property. Maher was a typewriter of his own. He was ordered by Captain Duprey, adjutant to General Grant, to copy certain orders on his own machine. He declined, stating that the machine was his personal property, but that if the government would furnish a machine he would make the order. He was arrested and the trial brought out the facts as stated. Maher is a member of Governor Holcomb's staff and a prominent man at home.

Privates Markley, Albright, Sullivan and Grubb of Company K, First Pennsylvania, were on trial charged with desertion and leaving camp without permission. It was shown that the men had absented themselves for several days without permission, and while the result of the trial is not known it is understood that it will go hard with them.

INCOMPETENT QUARTERMASTERS.

They Were the Cause of Delay in Troops Starting to Cuba.

Chicago, June 18.—A prominent railroad official who returned from Tampa today said that the health of the troops there was excellent.

"The delays attending the transportation of troops from Tampa," he said, "was caused by the lack of ability on the part of army quartermasters who seemed to be utterly unable to properly discharge their duties. Many carloads of provisions for the troops were not handled promptly and their contents in consequence spoiled and had to be thrown into the sea. The magnificent military system is defective in the quartermasters' department. There is apparently a lack of quartermasters who have a thorough knowledge of up-to-date rail as well as ship transportation. It seems to me that the remedy for it is to give instructions at West Point in transportation so that army officers can supervise the work of this important department and see that it is properly done."

INDIANA AND KENTUCKY.

General Corbin Announces That Each Will Raise an Infantry Regiment.

Washington, June 18.—Adjutant General Corbin last night made public the number of additional regiments, battalions, companies or batteries required from each state under the second call of the president for volunteers. The organizations from each state will be in addition to the number of men which will be enlisted from the several states to fill to the maximum of 100 men to a company, the organizations now in the field.

Under the second call the various states and territories will furnish, as organizations, 22 regiments of infantry, six regiments and three companies of cavalry, in unattached organizations, 14 light batteries and three heavy batteries. According to the statement made by Adjutant General Corbin Indiana and Kentucky will each furnish one regiment of infantry.

Full Regiment.

Frankfort, Ky., June 18.—Captain Ballance of the regular army, who has acted as chief mustering officer for the Kentucky troops, held a conference with Governor Bradley yesterday and told the governor that he thought Kentucky would be allowed a full regiment under the second call instead of two battalions, though he had received no orders yet to that effect.

KENTUCKY BAPTISTS.

Whittitt Case to Come Before State Association.

Hopkinsville, Ky., June 18.—The State Association of Kentucky Baptists convened here today, to remain in session for five days.

The chief question that will come up will be the removal from the head of the Southern Baptist seminary at Louisville of Rev. Dr. Whittitt. This case has been pending for three years, and has attracted the attention of Baptists all over the country.

The trouble originated over an article contributed by Dr. Whittitt to an encyclopedia, when he asserted it to be his belief that Roger Williams, the founder of Rhode Island, was never baptized.

TWO KILLED

Four Seriously Injured by a Falling Bridge.

Murphreesboro, Ill., June 18.—The new bridge being built by the Illinois Central across the Big Muddy river at Murphreesboro has broken down under a construction train, killing two men and injuring four others, one or two of whom will likely die. The engineer, Frank Scramlin, who went down with his engine, and Ben D. Williams of Carbondale, a laborer, were killed. John Katzmier, the fireman on the locomotive, was painfully wounded in the head and back, and the others hurt were laborers.

To be the mother of many children is ranked among nature's chief blessings, but when the cares of a household are added to the trials of frequent motherhood, it is too great a burden for a woman who is not in prime health and condition. Every woman who is called upon to bear the ordeal of bringing many children into the world needs the support and reinforcement of that wonderful strength-promoting Favorite Prescription, originated by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and one of the most eminent of living specialists in treating the ailments of women.

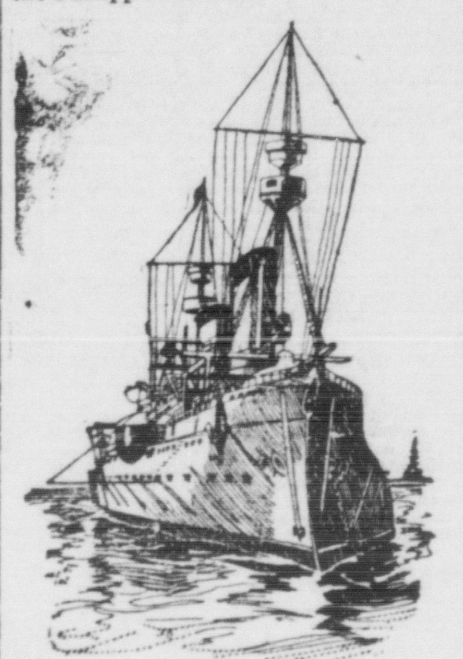

Mrs. David H. Langley, of Lansing, Michigan, writes: "I am now thirty-six years old and have given birth to ten children. Eight only are living. I have two boys six years old. The same spring after they were born I was confined to my bed all spring and summer with female complaint, and it so badly I could hardly walk around the house without feeling worse. I was restless at night, sleep almost left me, and I was almost a skeleton. I did not call my doctor as I had tried the doctors twice before when I was down with the same trouble, and my husband had sent out a great deal for me. I received no lasting benefit. I had almost lost all hope of ever being able to do anything. My husband had to work very hard and I could not even attend to the babies. No one can know the distress of my mind as well as body. Dr. Pierce's Favorite Prescription was the only medicine that seemed to do me any good. After I had taken the first bottle and part of the second, I could sleep well and all my troubles began to get better. I believe I took eight bottles and then I felt like a different person. I gave birth to another baby and my old complaint came back. I began using the Favorite Prescription and was soon relieved and was able to do my work, including the washing."

Mothers would be immensely helped in raising their children strong and healthy by the sound medical advice contained in Dr. Pierce's Common Sense Medical Adviser. This thousand-page book will be sent free for 21 one-cent stamps to pay the cost of mailing only. Address, World's Dispensary Med. Assn., Buffalo, N. Y., or send 31 stamps for a cloth-bound copy.

Philippine Islands, will do nothing to favor Spain.

One of the high Spanish ministers in an interview yesterday said: "Aguinaldo, after breaking faith with the Spaniards, induced the uprising in aid of the Americans by swearing that the latter only came to liberate the Philippine Islands and would support a native republic. But when the natives see through the trickery and Spanish war ships, with reinforcements appear, there will be reaction in favor of Spain, because the natives, although fierce, are still influenced by the friars who are only hated by the members of the secret societies, and not by the mass of natives."

"If Manila is obliged to capitulate, the seat of government will be transferred to the Visayas Islands, Gen. Augusti capitulating as commander of Manila and not as governor general of the Philippine Islands."

BATTLESHIP PELAYO (Flagship of the Cadiz Fleet.)

MORE FIGHTING.

Insurgents Outwit and Outgeneral Spaniards at Manila.

Manila, June 6, via Hong Kong June 18.—There was a concerted attack last evening in every direction. The Spaniards were informed of the insurgents' intention to capture two magazines outside the fortifications at Malate and Santa Mesa, southward and westward of the city. Therefore they concentrated their forces for a supreme effort in their defense and bombarded the jungle all night long. In the meantime, the insurgents captured Malaban and Calocan, in the northern suburbs. The Spaniards were thus outwitted, outgeneral and harassed to death.

During the previous night, owing to a misunderstanding, a squad of Spanish artillerymen stampeded from Malate into Manila, causing immense consternation, it being believed that the insurgents were storming the city. A Spanish officer commanding an outpost at San Juan left his men in charge of a sergeant, came to town and was found helplessly drunk. It is reported that he was sentenced to death.

AGUINALDO'S PROCLAMATION. Calls On the Natives to Assemble and Proclaim Their Independence. Manila, June 13, via Hong Kong, June 18.—Aguinaldo, the insurgent leader, has issued a proclamation calling upon the natives to assemble at Cavite on June 23 and inviting the Americans to be present at the ceremony of a declaration of independence. incessant skirmishing goes on in the vicinity of Malabar, Santa Mesa and Malate. The Spaniards are making desperate attempts to regain their lost positions. Under American orders, the insurgents are holding back and playing elusive tactics that are cruelly exhausting to the Spaniards.

Today 3000 native Carabineros deserted to the insurgents. They were originally disbanded by the Captain General, but recently were given their arms again.

ARCHBISHOP OF MANILA.

Has a Communication From God Regarding "Yankee Pigs."

London, June 18.—The Hong Kong correspondent of The Daily Mail says: "The archbishop of Manila, Mgr. Nozalea, announces that he has had a communication from God, who has promised him that the 'Yankee pigs' will be driven out of the island and that 'Spain will be triumphant in the end.' 'There is an idea in Manila that the Germans have something up their sleeve. On this point my correspondent writes me as follows: 'The Germans are disposed to be meddlesome here. Germans and Spaniards are very chummy, entertaining one another at dinner parties and walking arm in arm everywhere. There is no question about how the British feel. They are watching the Germans closely.'"

CAPTURED BY REBELS.

Captain General Augusti's Family Said to Have Been Taken.

London, June 18.—The Hong Kong correspondent of the Times says: According to Manila advices, dated June 13, and brought here by H. M. S. Linnet, the rebels have captured the family of Captain General Augusti.

In most cases the desertions of the native regiments have been accompanied by a massacre of the officers. It is reported from Shanghai that the Spanish archbishop from Manila has arrived there by the German troopship Darnstadt.

PURISIMA CONCESSION.

Spanish Ship Arrives at Manzanillo With Supplies.

Kingston, Jamaica, June 18.—A dispatch from Manzanillo, province of Santiago de Cuba, received here announces the arrival there of the Spanish steamer Purisima Concepcion which sailed from Kingston with food supplies

for the Spanish troops and carrying, it is understood, \$100,000 in gold.

SPANISH DEFENSES

Have Been Greatly Strengthened and the Garrison Reinforced—Miles Talks in a General Way of Prospective Military Movements—Watching the Cadiz Fleet. Recruits Arriving at Chickamauga and Courtmartial Being Held.

Washington, June 18.—The return of General Miles to Washington from Tampa has had an inspiring effect upon the war preparations. The general had a busy day yesterday, calling upon Secretary Alger, consulting the chiefs of the staff departments and giving the department the benefit of his observations at Tampa.

Secretary Alger said that he was entirely satisfied with the condition of troops as reported by General Miles. The general is yet to have a conference with the president. In the meantime the plans are moving steadily for sending further expeditions both to Porto Rico and Cuba. There is little likelihood that a second expedition of men to reinforce General Shafter at Santiago will leave within the next few days, as has been reported. The main consideration just at present is the equipment of an expedition of greater dimensions than heretofore discussed, with Porto Rico as the objective point. A month ago the military authorities were satisfied that a small force would be sufficient to occupy Porto Rico, as the Spanish force there did not exceed 5,000 or 6,000 men. Now, however, the Spanish garrisons have been so reinforced, and the defenses strengthened that it is believed a much larger invading army will be required.

Moreover, the officials were satisfied on learning yesterday that the Cadiz fleet had sailed, and that the ships would go to Porto Rico rather than to Cuba, if they crossed to this side.

INDIANA AND KENTUCKY.

General Corbin Announces That Each Will Raise an Infantry Regiment.

Washington, June 18.—Adjutant General Corbin last night made public the number of additional regiments, battalions, companies or batteries required from each state under the second call of the president for volunteers. The organizations from each state will be in addition to the number of men which will be enlisted from the several states to fill to the maximum of 100 men to a company, the organizations now in the field.

Under the second call the various states and territories will furnish, as organizations, 22 regiments of infantry, six regiments and three companies of cavalry, in unattached organizations, 14 light batteries and three heavy batteries. According to the statement made by Adjutant General Corbin, Indiana and Kentucky will each furnish one regiment of infantry.

Full Regiment.

Frankfort, Ky., June 18.—Captain Ballance of the regular army, who has acted as chief mustering officer for the Kentucky troops, held a conference with Governor Bradley yesterday and told the governor that he thought Kentucky would be allowed a full regiment under the second call instead of two battalions, though he had received no orders yet to that effect.

KENTUCKY BAPTISTS.

Whitsett Case to Come Before State Association.

Hopkinsville, Ky., June 18.—The State Association of Kentucky Baptists convened here today, to remain in session for five days.

The chief question that will come up will be the removal from the head of the Southern Baptist seminary at Louisville of Rev. Dr. Whitsett. This case has been pending for three years, and has attracted the attention of Baptists all over the country.

The trouble originated over an article contributed by Dr. Whitsett to an encyclopedia, when he asserted it to be his belief that Roger Williams, the founder of Rhode Island, was never baptized.

TWO KILLED

Four Seriously Injured by a Falling Bridge.

Murphreesboro, Ill., June 18.—The new bridge being built by the Illinois Central across the Big Muddy river at Murphreesboro has broken down under a construction train, killing two men and injuring four others, one or two of whom will likely die. The engineer, Frank Scramlin, who went down with his engine, and Ben D. Williams of Carbondale, a laborer, were killed. John Katzmark, the fireman on the locomotive, was painfully wounded in the head and back, and the others hurt were laborers.

DOINGS AT CHICKAMAUGA.

Arrival of Recruits—Court-martial Trials in Progress.

Chickamauga National Military Park, Ga., June 18.—The most satisfactory reports are being received from the various state recruiting stations.

The arrivals reporting to General Brooke yesterday were as follows: Thirty for the One Hundred and Sixtieth Indiana, 30 for the Third Kentucky, 45 for the Second Wisconsin, 21 for the Third Illinois, 154 for the First Pennsylvania, 20 for the Second Missouri and a number of others that had not reported last night. In all Major Richards states that 400 recruits were received yesterday.

Two interesting court-martial trials were in progress yesterday. Private John G. Maher, secretary to Colonel Bills of the Second Nebraska, was tried for alleged insubordination. The facts of the case involved the right of an enlisted man to the use of his own private property. Maher has a typewriter of his own. He was ordered by Captain Duprey, adjutant to General Grant, to copy certain orders on his own machine. He declined, stating that the machine was his personal property, but that if the government would furnish a machine he would make the order. He was arrested and the trial brought out the facts as stated. Maher is a member of Governor Holcomb's staff and a prominent man at home.

Privates Markley, Albright, Sullivan and Grubb of Company K, First Pennsylvania, were on trial charged with desertion and leaving camp without permission. It was shown that the men had absented themselves for several days without permission, and while the result of the trial is not known it is understood that it will go hard with them.

INCOMPETENT QUARTERMASTERS.

They Were the Cause of Delay in Troops Starting to Cuba.

Chicago, June 18.—A prominent railroad official who returned from Tampa today said that the health of the troops there was excellent.

"The delays attending the transportation of troops from Tampa," he said, "was caused by the lack of ability on the part of army quartermasters who seemed to be utterly unable to properly discharge their duties. Many carloads of provisions for the troops were not handled promptly and their contents in consequence spoiled and had to be thrown into the sea. The magnificent military system is defective in the quartermasters' department. There is apparently a lack of quartermasters who have a thorough knowledge of up-to-date rail as well as ship transportation. It seems to me that the remedy for it is to give instructions at West Point in transportation so that army officers can supervise the work of this important department and see that it is properly done."

GETS \$5,000

For Being Blacklisted by a Railroad Company.

Norwalk, O., June 18.—The jury in the case of John Schaefer against the Nickelplate railroad has returned a verdict for the plaintiff for \$5,000. The case grew out of the railroad strike of 1894, the plaintiff claiming that the defendant conspired with other railroad companies by placing his name on the so-called "blacklist" to prevent him from securing employment.

BISMARCK

Aged Statesman's Health Causing Renewed Anxiety.

Berlin, June 18.—Prince Bismarck's health is causing renewed anxiety. He is reported to be suffering great pain from inflammation of the veins of his right leg, and his daily drive has been suspended and his sleep is broken.

Dr. Schweninger, the prince's physician, it is asserted, has arrived at Friedrichshagen.

The Horrors of Rheumatism.

A woman's account of torture which lasted three years; of her struggles against the dreadful disease, and the good fortune that crowned her efforts.

Such suffering as rheumatism causes the victims upon whom it fastens itself is almost unendurable.

Sufferers from the worst types of this terrible disease will supply the missing horrors in the following story from real life.

Those who write under milder forms of rheumatism will be able to imagine the feelings of the tortured victim.

The only justification for making public such heart-rending details is the fact that the lesson taught will be helpful to others, pointing the way to renewed life and health to every sufferer from rheumatism.

The story is told by a woman. Her name is Mrs. Caleb Fenly; she lives in St. Paul, Ind.

This is her account:

"I am a farmer's wife. I believe my frequent exposure to the weather caused my terrible attack of rheumatism. Damp weather always aggravated it.

"My limbs would begin to swell at the ankle joints.

"This swelling would begin in the night, at times, I would awake in agony.

"Daylight would find my limbs purple in color, swollen to twice their natural size, and so racked with pain I could not bear to touch them.

"My right arm and both legs were so drawn as to be almost useless.

"My skin became dry and yellow.

"At times my limbs would pain as though millions of needles were pricking them.

"Again they would be numb and I

could not feel a needle thrust into my flesh.

"I was confined to the house three years, unable to walk nearly half the time.

"After those three slow years of agony, during which I spent probably \$2,000 for treatment and tried a dozen doctors, I gave up hope of any release from pain, but death.

"I was cured, completely cured, by Dr. Williams' Pink Pills for Pale People. They alone caused my recovery.

"The first dose gave me appetite. After the second dose I slept soundly, the first time within a year.

"I had taken the contents of eleven boxes I felt entirely well.

"The doctor said I was cured. He was greatly impressed, and since then he has prescribed Dr. Williams' Pink Pills for Pale People for many of his patients."

Mrs. Fenly, together with her husband, made affidavit to the exact truth of the foregoing account before Notary P. N. Thomas.

The cure of the severest cases of rheumatism by Dr. Williams' Pink Pills for Pale People has occurred in every state in the Union, and its power in ordinary cases is proportionately greater.

These marvelous vegetable pills go directly to the seat of the trouble. They build up a new cellular structure in the diseased parts by eliminating poisonous elements and renewing health-giving chemical forces in the blood.

They are for sale by druggists everywhere for 50 cents a single box or \$2.50 for half a dozen.

That stampede of 3,000 mules through the camp at Tampa is said to have been the result of Spanish spies working with the mules to cause them to turn traitor and avenge the death of that mule which was killed in the bombardment of Matanzas.

The publication of the usual summer novel has fallen off about fifty per cent this year owing to the demand for war news. The average newspaper will prove more beneficial to the reader than the average summer novel. So there is some gain even from the war.

The objections that the government might have made a little money by selling the bonds to a syndicate rather than to the people direct is not well taken. In the first place it is not all sure, though it is probable, that the bonds would have brought a premium, but the fact that the people can be brought into direct and personal relation to the government and that they can make the profit on the bonds if there should be any premium, will be worth more to the government than the premium from sale of the bonds to a syndicate. It is probable also that the bonds will be sold very largely to people who have had small savings laid away and the popular loan will thus bring into active circulation millions of dollars that would otherwise continue to lie idle.

The entire dome of J. H. LAPEARL'S Colossal Circus and Hippodrome tent is a busy net work of aerial apparatus for the presentation of a myriad of sensational and thrilling aerial displays by the most daring and fearless high air performers of both Europe and America. So great is the number of aerial acts presented that as many as eight different specialties of this character are given at the same time: the immense dome of the amphitheater being literally alive with the most daring and skillful exhibits. Prominent among the many high class aerial champions are the famous LAPEARL CHILDREN in the most daring aerial act extant. Introducing during their display the most extraordinary and perilous mid air evolutions consisting of headlong dives, somersaults, pirouettes, and intricate rotations from one swinging bar to another, and bird like flight into each others outstretched arms, forty feet away. The agility displayed in these bird like flights would seem incredible if not publicly performed. Though there is apparent a deftness and exact nicety of precision, the eye is no more capable of carrying to the mind an idea of the intricate calculations of the performers than it would be to follow a single spoke in a rapidly revolving wheel. Never before has a series of feats of such unquestioned daring, such contempt of danger, of such recklessness, been presented to the public.

These enormous shows will exhibit at Seymour June 23. 18, 20, 22

The Horrors of Rheumatism.

A woman's account of torture which lasted three years; of her struggles against the dreadful disease, and the good fortune that crowned her efforts.

Such suffering as rheumatism causes the victims upon whom it fastens itself is almost unendurable.

Sufferers from the worst types of this terrible disease will supply the missing horrors in the following story from real life.

Those who write under milder forms of rheumatism will be able to imagine the feelings of the tortured victim.

The only justification for making public such heart-rending details is the fact that the lesson taught will be helpful to others, pointing the way to renewed life and health to every sufferer from rheumatism.

The story is told by a woman. Her name is Mrs. Caleb Fenly; she lives in St. Paul, Ind.

This is her account:

"I am a farmer's wife. I believe my frequent exposure to the weather caused my terrible attack of rheumatism. Damp weather always aggravated it.

"My limbs would begin to swell at the ankle joints.

"This swelling would begin in the night, at times. I would wake in agony.

"Daylight would find my limbs purple in color, swollen to twice their natural size, and so racked with pain I could not bear to touch them.

"My right arm and both legs were so drawn as to be almost useless.

"My skin became dry and yellow.

"At times my limbs would pain as though millions of needles were pricking them.

"Again they would be numb and I could not feel a needle thrust into my flesh.

"I was confined to the house three years, unable to walk nearly half the time.

"After those three slow years of agony, during which I spent probably \$2,000 for treatment and tried a dozen doctors, I gave up hope of any release from pain, but death.

"I was cured, completely cured, by Dr. Williams' Pink Pills for Pale People. They alone caused my recovery.

"The first dose gave me appetite.

"After the second dose I slept soundly, the first time within a year.

"I sent for a dozen boxes. By the time I had taken the contents of eleven boxes I felt entirely well.

"The doctor said I was cured. He was greatly impressed, and since then he has prescribed Dr. Williams' Pink Pills for Pale People for many of his patients.

"Mrs. Fenly, together with her husband, made affidavit to the exact truth of the foregoing account before Notary P. N. Thomas.

The cure of the severest cases of rheumatism by Dr. Williams' Pink Pills for Pale People has occurred in every state in the Union, and its power in ordinary cases is proportionately greater.

These marvelous vegetable pills go directly to the seat of the trouble. They build up a new cellular structure in the diseased parts by eliminating poisonous elements and renewing health-giving chemical forces in the blood.

They are for sale by druggists everywhere; for 50 cents a single box or \$2.50 for half a dozen.

The entire dome of J. H. LaPEARL'S Colossal Circus and Hippodrome tent is a maze of net work of aerial apparatus for the presentation of a myriad of sensational and thrilling aerial displays by the most daring and fearless high air performers of both Europe and America. So great is the number of aerial acts presented that as many as eight different specialties of this character are given at the same time; the immense dome of the amphitheater being literally alive with the most daring and skillful exhibits. Prominent among the many high class aerial champions are the famous LaPEARL CHILDREN in the most daring aerial act extant. Introducing during their display the most extraordinary and perilous mid air evolutions consisting of headlong dives, somersaults, pirouettes, and intricate rotations from one swinging bar to another, and bird like flight into each others outstretched arms, forty feet away. The agility displayed in these bird like flights would seem incredible if not publicly performed. Though there is apparent a deftness and exact acrobatic precision, the eye is no more capable of carrying to the mind an idea of the intricate calculations of the performers than it would be to follow a single spoke in a rapidly revolving wheel. Never before has a series of feats of such unquestioned daring, such contempt of danger of such recklessness, been presented to the public. These enormous shows will exhibit at Seymour June 23, 18, 20, 22.

HOBSON WILL BE HELD.

BLANGO WILL NOT ENTERTAIN PROPOSALS FOR EXCHANGE.

War Loan Being Taken Rapidly—
Insurgents Declare Independence in the Philippines.

Under a flag of truce Gen. Blanco yesterday sent a message to the monitor Terror, refusing to entertain the proposition for the exchange of Spanish prisoners for Lieut. Hobson and crew.

Subscriptions to the war loan exceed by far the expectations of Treasury officials, and it is now believed the entire amount could have been disposed of at a less rate of interest than 3 per cent.

The blockade of Havana has been greatly weakened by the withdrawal of eighteen warships to convoy the invading army for fear of a phantom ship. Havana is known to be receiving food supplies, in all probability by blockade runners.

The Philippine insurgents win their victories with ease, the underfed Spaniards falling back on the city at every attack. The independence of the Philippines was formally declared at a meeting of insurgent leaders June 12.

A Shattered Nervous System.
FINALLY HEART TROUBLE.

Restored to Health by Dr. Miles' Nervine.

DR. EDWARD HARDY, the jolly manager of Sheppard Co.'s great store at Braceville, Ill., writes: "I had never been sick a day in my life until 1890. I got so bad with nervous prostration that I had to give up and commence to doctor. I tried our local physicians and one in Joliet, but none gave me any relief and I thought I was going to die. I became despondent and suffered untold agony. I could not eat, sleep nor rest, and it seemed as if I could not exist. At the end of six months I was reduced to but a shadow of myself, and at last my heart became affected and I was truly miserable. I took six or eight bottles of Dr. Miles' Nervine. It gave me relief from the start, and at last a cure, the greatest blessing of my life."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle free, or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

General Augusti Wires Madrid the Situation In Manila.

HE HAS A VAIN HOPE

That He Will Receive Assistance From the Peninsula.

WITHIN THE WALLED CITY

He May Be Compelled to Take Refuge.

Fighting In All Directions Is Reported From the Capital of the Philippines.

The Captain General's Family Said to Have Been Captured by the Insurgents. Cadiz Fleet Sighted Off Gibraltar Sailing Eastward—Ships Carrying the Rebel Flag Appear In Front of Manila.

Madrid, June 18.—The following dispatch from Manila signed by Captain General Augusti and dated June 13, is published officially:

"The grave situation set forth in my dispatch of June 5th continues. The troops are fighting on the line of block-houses which stops the enemy's advance. The enemy has been strengthened by desertions of the native troops, which diminish our means of resistance, and may compel me to take refuge within the walled city.

"Communication with the provinces is still cut off and I do not know whether the detachments there will be able to hold out against a lack of resources.

"I hope to receive assistance from the peninsula before our means of defense are exhausted."

CADIZ FLEET.

Rumors in Madrid That It Has Sailed For Boston.

Madrid, June 18.—There are a number of rumors in circulation here as to the destination of Admiral Camara's fleet. One has it that the Spanish warships are now heading for Boston, with the intention of bombarding New England towns, and another report sets forth that the Spanish reserve fleet is going to the Philippine Islands.

Fresh contingents of troops are being constantly called to the colors, and there is great activity in the war and navy departments. Work on the fortifications at the different ports of Spain is being actively pushed, and it is asserted that a third squadron of warships is to be formed immediately, to be composed of the Cardinal Cisneros, Lepanto, Alfonso XIII and other cruisers. Cadiz is to be the rendezvous of this squadron.

It is the general opinion here that a protracted war is ahead and it is semi-officially announced that the government does not count upon the support of any power, and that even Germany, in spite of her great interests in the

Philippine Islands, will do nothing to favor Spain.

One of the high Spanish ministers in an interview yesterday said: "Again, after breaking faith with the Spaniards, induced the uprising in aid of the Americans by swearing that the latter only came to liberate the Philippine Islands and would support a native republic. But when the natives see through the trickery and Spanish war ships, with reinforcements appear, there will be reaction in favor of Spain, because the natives, although fierce, are still influenced by the friars who are only hated by the members of the secret societies, and not by the mass of natives."

"If Manila is obliged to capitulate, the seat of government will be transferred to the Visayas Islands, Gen. Augusti capitulating as commander of Manila and not as governor general of the Philippine Islands."

BATTLESHIP PELAYO (Flagship of the Cadiz Fleet.)

MORE FIGHTING.

Insurgents Outwit and Outgeneral Spaniards at Manila.

Manila, June 6, via Hong Kong June 18.—There was a concerted attack last evening in every direction. The Spaniards were informed of the insurgents' intention to capture two magazines outside the fortifications at Malate and Santa Mesa, southward and westward of the city. Therefore they concentrated their forces for a supreme effort in their defense and were bombed the jungle all night long. In the meantime, the insurgents captured Malaban and Calocan, in the northern suburbs. The Spaniards were thus outwitted, outgeneral and harassed to death.

During the previous night, owing to a misunderstanding, a squad of Spanish artillerymen stampeded from Malate into Manila, causing immense consternation, it being believed that the insurgents were storming the city. A Spanish officer commanding an outpost at San Juan left his men in charge of a sergeant, came to town and was found helplessly drunk. It is reported that he was sentenced to death.

AGUINALDO'S PROCLAMATION.

Calls On the Natives to Assemble and Proclaim Their Independence.

Manila, June 13, via Hong Kong, June 18.—Aguinaldo, the insurgent leader, has issued a proclamation calling upon the natives to assemble at Cavite on June 22 and inviting the Americans to be present at the ceremony of a declaration of independence. Incessant skirmishing goes on in the vicinity of Malabar, Santa Mesa and Malate. The Spaniards are making desperate attempts to regain their lost positions. Under American orders, the insurgents are holding back and playing elusive tactics that are cruelly exhausting to the Spaniards.

Today 300 native Carabineros deserted to the insurgents. They were originally disarmed by the Captain General, but recently were given their arms again.

ARCHBISHOP OF MANILA.

Has a Communication From God Regarding "Yankee Pigs."

London, June 18.—The Hong Kong correspondent of The Daily Mail says: "The archbishop of Manila, Mgr. Nozalea, announces that he has had a communication from God, who has promised him that the 'Yankee pigs' will be driven out of the island and that 'Spain will be triumphant in the end.' 'There is an idea in Manila that the Germans have something up their sleeve. On this point my correspondent writes me as follows: 'The Germans are disposed to be meddlesome here. Germans and Spaniards are very chummy, entertaining one another at dinner parties and walking arm in arm everywhere. There is no question about how the British feel. They are watching the Germans closely.'"

CAPTURED BY REBELS.

Captain General Augusti's Family Said to Have Been Taken.

London, June 18.—The Hong Kong correspondent of The Times says: "According to Manila advices, dated June 13, and brought here by H. M. S. Linnet, the rebels have captured the family of Captain General Augusti.

In most cases the desertions of the native regiments have been accompanied by a massacre of the officers. It is reported from Shanghai that the Spanish archbishop from Manila has arrived there by the German troopship Darmstadt.

PURISIMA CONCEPCION.

Spanish Ship Arrives at Manzanillo With Supplies.

Kingston, Jamaica, June 18.—A dispatch from Manzanillo, province of Santiago de Cuba, received here announces the arrival there of the Spanish steamer Purisima Concepcion which sailed from Kingston with food supplies

for the Spanish troops and carrying, it is understood, \$100,000 in gold.

London, June 18.—The Madrid correspondent of The Daily Mail says: "An official dispatch from Manila asserts that the insurgents have closed around the town and are now attacking the walled part, where the defenders are still holding out. The insurgents have cut the water supply, but the city has remaining wells available. Fighting is going on, all on the sea front, but the Americans are taking no part in the attack."

Philippine Insurgents Have Warships.

BRADSTREET.

Some of the Notable Features In the Business World.

New York, June 18.—Bradstreet today says:

Unprecedented foreign trade totals, involving heavily increased shipments of breadstuffs, provisions, raw cotton and manufactured products, flattening crop prospects, pointing to a very large yield of wheat and most other cereals, as well as cotton; profitable railway operations, as reflected in relatively heavier gains in net than in gross receipts; activity in nearly all lines of manufacturing except some textile branches; prices for most staples showing heavy advances over the preceding year; bank clearings exceeding all previous records at this date; a volume of new demand limited in the east and south to midsummer dullness, but in the west and northwest comparing favorably with records of previous years; and a low rate of business mortality, are all features of the general business situation at the present time.

Cotton goods, if anything, are slightly improved, but raw wool is still under restricted demand, because manufacturers find new business slow. The price situation for the week, reflects steadiness, only in point decreases being in southern pig, wheat and flour, while hides are higher at the west, a number of metals have been advanced, and oats, corn, lard and cotton note fractional advances.

FIGHT WITH THIEVES.

Hunters Find a Lot of Household Goods In the Woods.

Richmond, Ky., June 18.—While squirrel hunting near Big Hill, 10 miles south of here, John McHorn found a lot of household goods concealed in the woods. Suspecting theft, he and three other watched for the thieves, who appeared with a wagon. When commanded to halt the thieves opened fire on McHorn and party and a pitched battle ensued. McHorn was shot in the shoulder and leg. One of the thieves is believed to have been wounded. All of them escaped, leaving the wagon, a hat and a coat. There have been no arrests.

The Horrors of Rheumatism.

A woman's account of torture which lasted three years; of her struggles against the dreadful disease, and the good fortune that crowned her efforts.

Such suffering as rheumatism causes the victims upon whom it fastens itself is almost unendurable.

Sufferers from the worst types of this terrible disease will supply the missing horrors in the following story from real life.

Those who write under milder forms of rheumatism will be able to imagine the feelings of the tortured victim.

The only justification for making public such heart-rending details is the fact that the lesson taught will be helpful to others, pointing the way to renewed life and health to every sufferer from rheumatism.

The story is told by a woman. Her name is Mrs. Caleb Fenley; she lives in St. Paul, Ind.

This is her account: "I am a farmer's wife. I believe my frequent exposure to the weather caused my terrible attack of rheumatism. Damp weather always aggravated it.

"My limbs would begin to swell at the ankle joints.

"This swelling would begin in the night, at times, I would awake in agony.

"Daylight would find my limbs purple in color, swollen to twice their natural size, and so racked with pain I could not bear to touch them.

"My right arm and both legs were so drawn as to be almost useless.

"At times my limbs would pain as though millions of needles were pricking them.

"Again they would be numb and I

could not feel a needle thrust into my flesh.

"I was confined to the house three years, unable to walk nearly half the time.

"After those three slow years of agony, during which I spent probably \$2,000 for treatment and tried a dozen doctors, I gave up hope of any release from pain, but death.

"I was cured, completely cured, by Dr. Williams' Pink Pills for Pale People. They alone caused my recovery.

"The first dose gave me appetite. "After the second dose I slept soundly, the first time within a year.

"I sent for a dozen boxes. By the time I had taken the contents of eleven boxes I felt entirely well.

"The doctor said I was cured. He was greatly impressed, and since then he has prescribed Dr. Williams' Pink Pills for Pale People for many of his patients."

Mrs. Fenley, together with her husband, made affidavit to the exact truth of the foregoing account before Notary P. N. Thomas.

The cure of the severest cases of rheumatism by Dr. Williams' Pink Pills for Pale People has occurred in every state of the Union, and its power in ordinary cases is proportionately greater.

These marvelous vegetable pills go directly to the seat of the trouble. They build up a new cellular structure in the diseased parts by eliminating poisonous elements and renewing health-giving chemical forces in the blood.

They are for sale by druggists everywhere for 50 cents a single box or \$2.50 for half a dozen.

That stampede of 3,000 mules through the camp at Tampa is said to have been the result of Spanish spies working with the mules to cause them to turn traitor and avenge the death of that mule which was killed in the bombardment of Matanzas.

The publication of the usual summer novel has fallen off about fifty per cent this year owing to the demand for war news. The average newspaper will prove more beneficial to the reader than the average summer novel. So there is some gain even from the war.

The objections that the government might have made a little money by selling the bonds to a syndicate rather than to the people direct is not well taken. In the first place it is not all sure, though it is probable, that the bonds would have brought a premium, but the fact that the people can be brought into direct and personal relation to the government and that they can make the profit on the bonds if there should be any premium, will be worth more to the government than the premium from sale of the bonds to a syndicate. It is probable also that the bonds will be sold very largely to people who have had small savings laid away and the popular loan will thus bring into active circulation millions of dollars that would otherwise continue to lie idle.

The entire dome of J. H. LAPEARL'S Colossal Circus and Hippodrome tent is a maze network of aerial apparatus for the presentation of a myriad of sensational and thrilling aerial displays by the most daring and fearless high air performers of both Europe and America. So great is the number of aerial acts presented that as many as eight different specialties of this character are given at the same time; the immense dome of the amphitheater being literally alive with the most daring and skillful exhibits.

Prominent among the many high class aerial champions are the famous LAPEARL CHILDREN in the most daring aerial act extant. Introducing during their display the most extraordinary and perilous mid air evolutions consisting of headlong dives, somersaults, pirouettes, and intricate rotations from one swinging bar to another, and bird like flight into each others outstretched arms, foot feet away. The agility displayed in these bird like flights would seem incredible if not publicly performed. Though there is apparent a deftness and exact nicety of precision, the eye is no more capable of carrying to the mind an idea of the intricate calculations of the performers than it would be to follow a single spoke in a rapidly revolving wheel. Never before has a series of feats of such unquestioned daring, such contempt of danger of such recklessness, been presented to the public.

These enormous shows will exhibit at Seymour June 23, 18, 20, 22

HOBSON WILL BE HELD.

BLANGO WILL NOT ENTERTAIN PROPOSALS FOR EXCHANGE.

War Loan Being Taken Rapidly—Insurgents Declare Independence in the Philippines.

Under a flag of truce Gen. Blanco yesterday sent a message to the monitor Terror, refusing to entertain the proposition for the exchange of Spanish prisoners for Lieut. Hobson and crew.

Subscriptions to the war loan exceed by far the expectations of Treasury officials, and it is now believed the entire amount could have been disposed of at a less rate of interest than 3 per cent.

The blockade of Havana has been greatly weakened by the withdrawal of eighteen warships to convoy the invading army for fear of a phantom ship. Havana is known to be receiving food supplies, in all probability by blockade runners.

The Philippine insurgents win their victories with ease, the underfed Spaniards falling back on the city at every attack. The independence of the Philippines was formally declared at a meeting of insurgent leaders June 12.

FOR ALL WOMEN

Nine-tenths of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McELREY'S Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very regular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Band Concerts.

Arrangements are being completed by the band boys for giving another series of band concerts on the streets one evening each week as was done last year. The concerts last year were a success and were always largely attended. The band expects to have the arrangements completed in a very few days.

I was seriously afflicted with a cough or several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, MRS. MARY A. BEARD, Claremore, Ark. For sale by C. W. Milhous.

Home Trade.

Buy at home. This is sound advice. In doing so you have many advantages. You can see the goods you buy. If they are not right your dealer will make them right without expense to you.

The dealer has stood by you through hard times. Perhaps he has carried your account over a season when you were short on crops or on prices. If you have a little money now don't send it off to some cheap John catalogue house and buy your goods "sight unseen." Spend it at home and keep it in circulation about you, and it costs no more in the end than to send away and buy cheap goods at cheap prices.

The dealer is not swine. He does not want the earth. He aims to keep an up-to-date stock of up-to-date goods, he pays the freight, asks a reasonable profit, and there you are, goods at your hand, the dealer to come back to if not entirely satisfied and repairs easy to obtain.

The catalogue house may not be an entirely unmitigated evil, but their offers are very delusive.

HE HAD HIM THERE.

How a Passenger Got Even With a Street Car Conductor.

He was intent upon his newspaper when the conductor came along and stopped in front of him.

The conductor stooped down to get a better look at his face and said, "Fare, please."

The man with the paper paid no attention, and finally the conductor tapped him gently on the arm.

"Did I get your fare?" asked the conductor as the man with the paper looked up.

Now, if there is anything in this world that has a tendency to make a man who has paid his fare get angry it is to have the agent of the corporation to whom such fare was paid come along and ask him if he has paid it. It may be all right, but it always seems as if there was an inference that some one is trying to beat the road. Thus it happened that the man with the paper replied rather sharply:

"You ought to know."

"Oh, it's all right, sir!" explained the conductor hastily. "No intention to offend, you know. I merely wanted to make sure."

Then he returned to the platform, while the man with the paper returned to his reading.

A few minutes later the man with the paper went out on the platform himself, and just before reaching his corner he gently tapped the conductor on the arm, even as the conductor had tapped him.

"Did you ring up my fare?" he asked.

There were immediate indications that the conductor was getting mad. He tried to say something, but only spluttered.

"Oh, it's all right!" the man with the paper hastened to explain. "No intention to offend, you know. I only wanted to make sure."

Then he swung off the car, and when he reached home his wife detected traces of a faint smile on his face.—Philadelphia Times.
